Nor' Loft

Nor' Loft, our 7th floor rooftop champagne lounge exudes character and style whilst giving a nod to its historic, enchanting roots.

The Nor' Loft signature is Champagne, enjoyed with a selection of carefully curated grazing plates, complete with local and seasonal produce.

Architecture and Design

Our design process and conceptualisation were driven by the idea that the spatial compositions and materiality of the adjacent Scottish Baronial historic context should be emphasised – the contemporary architecture acknowledges the past without imitating it. We focused our design on the details.

Seen from the adjacent New Town and Princes Street, the walls of cream stone and dark stone rise above the parklands of Waverley valley to create a beautifully layered composition, complementing the iconic skyline of spires and turrets that makes Edinburgh famous around the world.
